When I think of Dr. Dadvand, I think perfection, I think excellence, I think care..

This post took me over a year to write and for that I am deeply apologetic.. But I just had to be sure, and these results speak for themselves.

Dr. Dadvand is an Amazing surgeon. From the minute I walked into his office, greeted by his staff, and shook his hand, I knew I wasn't going anywhere else. Everything from the consult on day one to post surgery follow ups, everything ran incredibly smooth. Dr. Dadvand truly cares about his patients and about his work, he was there every step of the way and for that I can't thank him enough. I had Gynecomastia surgery and had always been a bit self conscious about how my chest looked in or out of a shirt.. Getting this surgery was the best thing that had happened to me and changed my life. Over a year later, the results are incredible. No other doctor can do what Dr. Dadvand did. If anyone is considering this type of procedure, I strongly recommend Dr. Dadvand at Profiles.

First off, I myself am a physician. I had bilateral male breast reduction surgery for gynecomastia and I whole heartedly recommend Dr. D.

I had thought about getting the procedure done for the past 2 years because I was self-conscious going to the gym, going to the beach and even just wearing fitted t-shirts. I finally decided to pull the trigger about 6 months ago and I'm so glad that I did.

I looked around, got several quotes and visited several doctors. I knew I wanted someone that did a lot of these surgeries for guys. I also knew that I wanted a full resection instead of lipo. Dr. D's office quoted a price right in the middle. It wasn't the cheapest nor the most expensive but Dr. D really stood out from the rest. He has a great demeanor, is extremely competent and honest but most important of all, he really cares about his patients. Coming from a doctor, I know you can't put a price on that.

After my initial surgery, I had a lot of swelling. These things happen but even though it was the evening on Valentine's day, Dr. D took me in and evacuated the swelling as soon as he found out. I eventually needed to go back to the OR one more time but things have turned out great. He really did an excellent job and I'm so glad I had it done by Dr. D. A terrific guy and a great surgeon.

If you are a man who wants to get rid of his gynecomastia and is looking for a doctor you can connect with and is a master at what He does, go to Dr. Dadvand. I am almost 5 months after the procedure, still healing but I can see I chose the perfect doctor. Thank G-d no scar tissue was formed, the stitches are not noticeable, and the results are outstanding.

He is a really good doctor, highly recommended.
